

# Together, we can create a better us.

Working with donors like you, the Y provides everyone the opportunity to be healthy and thrive, to connect with others, and contribute to a better community. Everything the Y does is in service of making us – as individuals and a community better. Together, we take on challenges that shape our community's future in the following areas:

**Enriching Youth & Families** 

Helping children reach their full potential by providing high quality child care, educational opportunities and enrichment when school is out of session.

**Water Safety** 

Making families safer around the water by providing swim lesson instruction and parent education in an effort to eliminate drownings and save lives.

**Wellness & Recovery** 

Combating chronic disease, like youth obesity, hypertension and Type 2 Diabetes by providing health education, wellness and nutrition classes, support groups and partnerships.

**Safe Spaces & Places for All** 

Providing opportunities to keep Y programs and memberships available to all and creating impact through outreach and support services.
